Before making a general appeal to all the citizens of the ward they have first sought the advice of some of the reprethe World's Fair in our sentative citizens, and it was found that such a step was highly recommended. Consequently a public meeting is arranged for tomorrow night at Dr. Mauley's hall. An estimate of the probable cost of the sewer will be disclosed at the meeting, and City En-gineer Phillips will either be present or a communication from him will be read. The councilmen hope that every property owner in the ward will be present and give his views in the material. In the age of wonders, novelties
